

## FEATURES & BENEFITS

- Move From Reactive To Predictive Security Posture
- Less Than 500 Milliseconds To Issue Actionable Vehicle Identification Data To User
- Stand-Alone Operation As Well As Integration With DVR/NVR, VMS, Access Control and PSIM Systems
- Real-Time Vehicle Pattern Analysis Of Vehicles Of Interests Moving Through The Network
- City Municipalities, Law Enforcement Agencies, and College/University Campuses

*IZSAFEROAD Generates Vehicle ID Alert*

*IZ1000 Imager Overlooking Highway Lane*

### INEX/ZAMIR's IZSAFEROAD VEHICLE

**IDENTIFICATION SOLUTION**, employing the world's premiere vehicle identification technology, provides users with the ability to automatically recognize and evaluate vehicle patterns, helping the user move from a reactive security posture into a predictive security posture.

To meet the growing challenge of protecting their citizens, businesses, and institutions alike, city municipalities and law enforcement agencies have together created the Safe City initiative, a set of partnerships and technical solutions designed to make the places where people live and work safer.

### INEX/ZAMIR's IZSAFEROAD VEHICLE

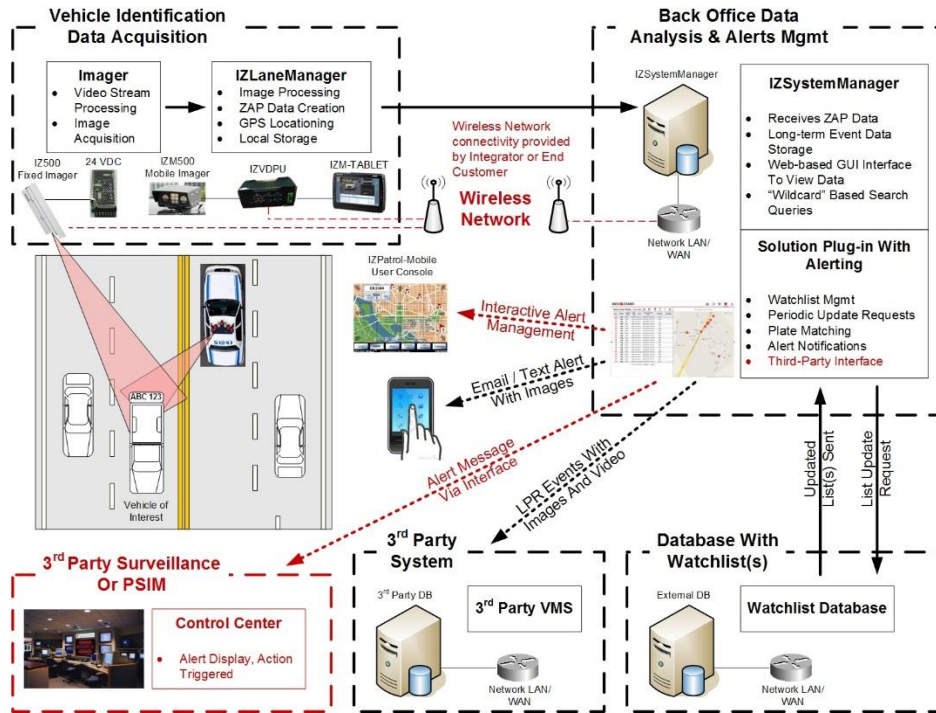

**IDENTIFICATION SOLUTION** is a natural fit to serve this purpose by bringing to bear the power of real-time, highly accurate vehicle identification data in a computer readable format that gives users the vehicle information they need for quick decision-making, when time matters most.

**IZSAFEROAD** provides the vehicle pattern analysis organizations need as a vehicle of interest moves through the system network, feeding computer recognizable vehicle identification data into Video Management Systems (VMS), Access Control Systems, or high-level Physical Security Information Management Systems (PSIM).

Building on its foundation of solid technology partnerships, INEX/ZAMIR's **IZSAFEROAD VEHICLE IDENTIFICATION SOLUTION** is already a seamlessly integrated solution with world-class surveillance and security system providers such as **OnSSI, Verint, NICE, Vicon, Geutebruck, VidSys, ConvergenceTP** and **Honeywell**, with other integrated solutions underway.

**Let us know how INEX/ZAMIR can help your organization with your Safe City vehicle identification needs today.**

**IZSAFEROAD VEHICLE IDENTIFICATION SOLUTION SYSTEM COMPONENTS**

	<b>IZ500 or IZ1000 Series Imager</b>	<ul style="list-style-type: none"> <li>✔ Designed For Access Control, Security And Law Enforcement</li> <li>✔ Users Move From Reactive To Predictive Security Postures</li> <li>✔ Integrations With <b>OnSSI, Verint, NICE, Vicon, Geutebruck, VidSys</b>, Others</li> </ul>
	<b>IZC800 Series Imager</b>	<ul style="list-style-type: none"> <li>✔ Designed For Security, Law Enforcement And General Scene Requirements</li> <li>✔ Simultaneously Provides Static Color Images And OnVIF Compliant Video</li> </ul>
	<b>IZDPU or IZODPU Data Processor Unit</b>	<ul style="list-style-type: none"> <li>✔ Combines Multi-Imager Connections With Minimal Network Data Output</li> <li>✔ Indoor Unit: 1U Chassis As Rackmount Or Panel Mount</li> <li>✔ Outdoor Unit: Small IP66 Enclosure Located At Edge With Imager(s)</li> </ul>
	<b>IZSAFEROAD Software</b>	<ul style="list-style-type: none"> <li>✔ Designed For City Municipalities, University/College Campuses</li> <li>✔ Boosts Safe City Monitoring Operations With Enhanced BOLO Alerts</li> <li>✔ Integrations With <b>OnSSI, Verint, NICE, Vicon, Geutebruck, VidSys</b>, Others</li> </ul>

**ABOUT INEX/ZAMIR**

INEX/ZAMIR has been supplying proven ALPR (Automatic License Plate Recognition) / ANPR (Automatic Number Plate Recognition) technology since 1993. We are the resource that organizations around the world turn to for license plate reader cameras and tailored solutions. Using advanced IR (infrared) LED technology, INEX/ZAMIR solutions effectively capture license plate data from passing vehicles in real time at any time, day or night.
